

# Predict360™ Quality Management Software

**Increase operational excellence, sustainability and compliance through a unique Quality Management Software.**

## The Challenges

Several industries are being heavily regulated. They constantly face the challenge of meeting rising quality standards and complying with rigorous regulatory requirements.

As regulations like FDA 21 CFR Part 11, 21 CFR Part 820, 21 CFR Part 210-211, CFR Part 820/QSR, CFR Part 606, ICH Q7A ISO 9000, ISO 13485:2003, GXP (GMP, GLP, GCP) are increasing, it is causing ambiguity on which regulations apply, how it impacts internal audit, behavioral risk, operational risk, evidence, policies and procedures.

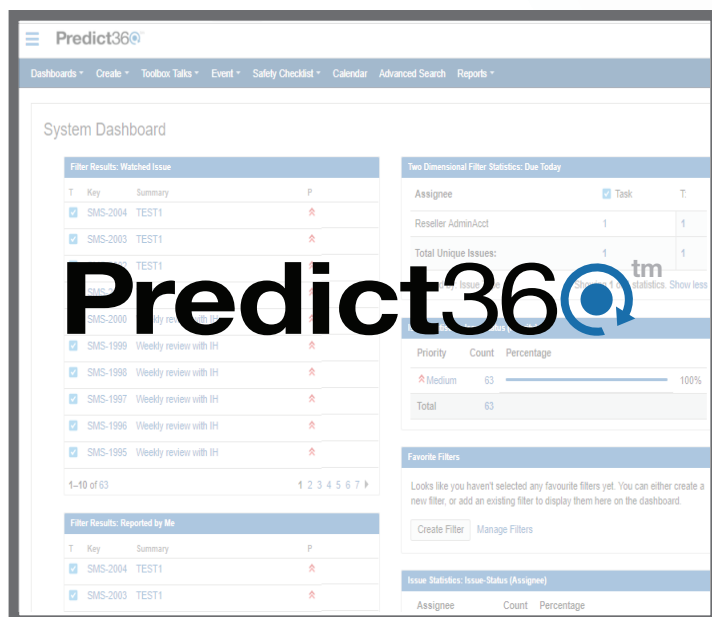

## Our Solution

Predict360™ Quality Management Software streamlines compliance with regulations like GxPs, FDA, ACA, MHRA, ISO and Annex 11 and increases quality production. It allows businesses to take a risk-based method to quality and compliance management and delivers a common structure with an integrated approach to meet FDA regulations through risk management, document control, auditing, as well as recording and reporting.

## Key Features

Predict360™ integrates seamlessly with existing ERP systems. It provides a single, highly configurable platform to manage the following functions effectively:

- CAPA
- Audits
- Validation Protocols
- Evidence Management
- Policy & Procedure Tracking
- Compliance
